POCKET DUNGEON — RULES

You need: this booklet, a pencil, and any d6.

SETUP

- Start floor 1 with 10 HP and 0 ¢.
- Find the helm (start). That is your position.

EACH TURN

1. Roll the d6.
2. Even (2/4/6): move orthogonally that many spaces.
3. Odd (1/3/5): move diagonally that many spaces.
4. Draw your path. You may stop early. You may not cross walls or leave the grid.
5. Resolve everything your line crosses:
 - Orc + number: lose that many HP
 - Crown coin: gain 1 ¢
 - Chest: you may buy (shop page)
 - Magic portal: jump to any empty cell
 - Stairs: go to the next floor

HP & DEATH

- Track Starting → Ending HP/¢ on each floor.
- Carry Ending values to the next floor's Starting.
- If HP drops to 0 or below: mark a death on the stats page, reset to 10 HP and 0 ¢, and continue on the NEXT floor (the book always progresses).
